

## How You Can Make a Difference by Giving to Project Access

*Did you know that...*

Of the 3 in 10 families below the poverty line in East Baltimore, approximately 7,000 are disabled.

### ***What is being done to help these families?***

1. First Tabernacle Beth El Baltimore and Ashland Community Development Corporation have partnered to launch **Project Access**.
2. **Project Access** will make our food service area at 1606 Ashland Avenue compliant with Americans with Disabilities Act Standards, as we seek to address food insecurity, and workforce development in the community.
3. These renovations are required to provide access to our commercial kitchen which will be used for culinary classes and other nutrition-related projects provided by Verdure Foods, a female, minority-owned business led by Chef Alonna Adesope.

### ***What is the goal of Project Access?***

To make a lasting transformation in our community, one person at a time.
